Why these services?

For many organisations, 100 MB of web space will go a very long way but if you've got a busy site, or you are **growing your online business rapidly** then higher monthly data transfer capacity is probably more important to you. Our premier solution provides 1 GB of web space, complete resiliency and great performance with load balancing across multiple web servers. Also, **200 GB data transfer** per month through a 1Mbps guaranteed internet connection and a 500 MB Microsoft SQL Server database will help you deal with the application and content demands of busy, mission-critical sites. This level of capability comes with **guaranteed uptime of 99.9%**, secure web space and a quality of service more typical of a dedicated hosting solution.

Web Redirection

If your website has a long URL as a result of being hosted on free web space then for **just £4.99/month**, our web redirection service provides you with an easier to remember URL for your visitors and advertising.
